Frontend Developer

STRENGTHS AND MOTIVATION

With a rich background in frontend development and a passion for creating innovative web applications, I excel at delivering seamless user experiences and scalable solutions. My expertise covers both frontend and backend development, ensuring a comprehensive understanding of building complex systems. The pandemic prompted my pivot into IT, showcasing my adaptability and eagerness to embrace new challenges and thrive in diverse domains.

EXPERIENCE

08/2023 – current

CodeBar.io, Remote
Coach

◆ Mentorship and Guidance: Provided personalized support to 6 Codebar students by guiding them through their coding projects and offering insights to enhance their understanding of various technologies. Additionally, assisted them with debugging, testing, and code refactoring.

◆ Technological Expertise: Sharing expertise in a range of technologies including HTML, CSS, JavaScript, React, Command Line, and Git, empowering students to build solid foundations in web development.

04/2024 – 05/2024

PowerCoders, Zürich, Switzerland
Mentor

◆ Mentored a cohort of 12 students at Powercoders, a boot camp for refugees in Zurich. Supported them in completing their weekly assignments, such as developing a Mine Game using Javascript. Provided guidance on enhancing the style and functionality of their personal coding projects. Additionally, assisted in deploying their projects to showcase their skills to potential employers.

05/2022 – 03/2023

Credit Network & Finance, Bari, Italy
Fullstack Developer

◆ Developed application for the Tax unit to digitalize and manage the handling steps throughout the appeal process, integrating the capability to attach documents at each step. Implemented additional features including super admin function for user management (registration and access revocation), and functionalities for importing and exporting Excel documents using an existing database.
◆ Restyled existing applications using CSS.
◆ Developed a customized application designed to manage invoice attachments efficiently and autonomated a manual process.
◆ Transformative B2C Platforms: Integrated features into B2C platforms. Enabled users to schedule appointments via a multi-step form for requesting assistance or setting appointments. Additionally, the system sends confirmation emails with calendar attachments.
◆ Implemented application to manage the delivery of payment notices and facilitate operators in tracking the status of notifications.

08.2019 – 09.2020

Villa Antinori, Bindella, Zürich Airport
Souschef
Italian restaurant in the Zurich airport, part of the Bindella Restaurant Group. Responsible for managing kitchen and operations. Team lead for 12 chefs.

05/2018 – 01/2005

During this time, I worked as Chef in a variety of restaurants and hotels in Switzerland, Austria, Belgium, United Kingdom and Italy. Key transferrable skills are: problem solving, time management and team management.

EDUCATION

08/2023 – current

Bachelor of Science, Computer Science
University of Maryland, Baltimore, Maryland, USA

10/2021 – 01/2022
